PROBLEM STATEMENT

A personal portfolio website that is responsive, clean, and user-friendly. It highlights personal information, projects, and achievements while allowing easy contact through a form or social links.

PROJECT OVERVIEW

A **project overview** is a concise, high-level document that provides a quick snapshot of a project. It serves as a blueprint, offering a clear, digestible summary of the project's purpose, goals, and direction for all stakeholders and team members. Think of it as an executive summary for your project.

WHO ARE THE END USERS?

A portfolio is a curated collection of a person's work, designed to showcase their skills, experience, and accomplishments. It's a professional snapshot used to demonstrate competence and potential to employers, clients, or academic institutions.

CONCLUSION

The portfolio website successfully demonstrates how a personal digital platform can enhance professional presence by showcasing skills, projects, and contact details in a structured and interactive manner. Built using HTML, CSS, and JavaScript, the site provides a responsive, user-friendly design with smooth navigation and essential features. This project not only serves as a digital resume but also strengthens opportunities for career growth, networking, and client engagement.
